In the foyer of the historic building of the Ján Palárik Theatre you will find the Bezkydov Theatre Café. Its name is inspired by the pseudonym of Ján Palárik, but thanks to a Slovak play on words it also refers to the philosophy of the café concept (written separately it means 'without gossip'). If you want to have a dialogue and do not want to be disturbed by other people than the café is just perfect for you.

The offer is based on the quality of products from local producers and proves a responsible approach to business, with respect for nature and without unnecessary waste. You will find no plastic straws or PET bottles here. The offer is built on quality and purity and therefore you can definitely find raw or gluten-free cakes here. Slovak coffee of world's quality brings coffee lovers a pleasure.

Theatrical environment is an added value, so if you are sitting in Bezkydov, you never know which star you can come across. It is one of the most representative buildings in Trnava where you can invite even the most demanding clients or colleagues. The staff of the café is customer oriented and they are ready to meet any of your wishes. Whether it is a classic one or experimental.

— This small family winery keeps the 100-year tradition of their ancestors alive and it is a perfect place for a teambuilding or spending a free time during conference. With respect to original values the winery produces authentic wines from its own vineyards stretching across the region of Dolný. A great experience is not only the degustation itself, but also the tour through the original water mill.

The old mill, built in the 16th century and owned by count Pálffy of Červený Kameň (Red Stone), offers a fairy-tale atmosphere. The current owners - the Demovič and Soós family - have rebuilt the old mill and now successfully produce authentic wines with the taste of terroir. Wines are processed without any further refinement and reach their potential through natural maturing with no acceleration processes.

Magic of the charming mill

Beside the traditional mill technology, about which you can learn from the narrative of Mr. Ervín Demovič, you can also find a folkish room from the 19th century. If you wonder how exactly the flour was ground in the past, then you can be glad to hear that every degustation includes a tour of technologies, such as race-way and filling technologies. You will never forget the atmosphere of this place!

Every year, the winery prepares several cheerful events in the 100-year-

old barn. You can use the area of the Mill with a capacity of about 20 guests throughout the year.

From May to September you can drink and eat in a 100-year old bar which has a capacity of up to 60 people. In case of favourable weather, you can sit outside in the shadow of old apple trees.

The Wines from the Mill winery has a great experience in preparation of tastings and refreshment, which can be prepared according to your wishes. Whether you like the traditional roast goose with homemade „lokše“ or you would prefer a more modern catering for your clients, you can definitely turn to them with any request. Little Berlin is an independent cultural centre, the only one in Trnava and the broader region. It is located in the historical core of the town, on the first floor of the reconstructed burgher's house.

The cultural centre Little Berlin is a project of the civic association Publikum.sk which has been active in Trnava since 2006. After five years of renovating the burgher's house in the historic centre of the town, the cultural centre was opened in early March 2018. 300 to 350 events for all ages are organized in its two halls every year.

The programme includes mostly theatre performances, concerts and literature but there are also various educational activities, discussions, conferences and multi-genre projects. Why is this cultural centre called Little Berlin? It is well known that Trnava is called Little Rome. It speaks about the history and a little bit about the present of the town's. On the other hand, Little Berlin is supposed to refer to the future, which should bring the development of cultural and creative industries for Trnava, while at present the city

of Berlin is considered the centre of independent culture in Europe.

Conference rooms and services

The Main Hall with an area of 130 m² and the Small Hall with an area of 70 m² offer flexible seating options, while the last rows of chairs in the Main Hall are raised for comfort. The technical equipment of the Main Hall includes a wall mounted projector screen, a projector, a sound system, a PA system for concerts and lighting system. The Small Hall provides the possibility of projection and sound system, and thanks to the food counters and cloakroom, it can serve as a background for events in the Main Hall.

The cultural centre can provide services of internal technicians, sound engineers and PR support for external events (upon agreement, primary promotion activities in Trnava location and region, issuing press releases, promotion via social networks, media partnerships).

You can get to know golf, play footgolf or relax in the café with terrace overlooking the golf course. The golf course offers a 9-hole course, training areas and a number of sports events.

Golf Trnava was founded in 2011 with the intention to build a golf training centre. Nowadays, the driving range offers a training background for a short and also a long game with comfortable social facilities and a 9-hole training course, PAR28, with a length of 1,000 m. Golfers and even those visitors who are not playing golf can have a café and a golf club rental at their disposal. Also people who don't have their own equipment can come and drive some balls. The café offers breakfast menu or light dinners. The driving range is used to train several types of golf drives. There you can find places for technical „disciplines“ like chipping or putting. The driving range includes lighting and sheltered places for training in bad weather conditions, even a vending machine for golf balls. The 9-hole course uses not only golfers but also footgolfers for which footgolf holes are available.

Free time **Golf Trnava**

Of course, there is the option to train under the supervision of professional golf coaches.

The staff of Golf Trnava will be happy to prepare a company event, family celebration or party for you exactly according to your wishes. Enjoy important moments with a view of the green driving range in absolute privacy. In addition to the café, there is also an opportunity to try golf drives together with your family and friends. If you are not keen on golf, try footgolf! In addition to private events, Golf Trnava also offers space for regular rentals during various sports events

The Town Tower has been the dominant landmark of Trnava for several centuries. As an observation tower it was built to contribute to the town's safety. Rising to a height of almost 60 meters, the massive Renaissance building hides a unique and still functioning mechanical clockwork in its interior. The Nemček's family has been taking care of the mechanical clockwork for almost five generations.

The walkway of the town is at the height of 29 m and you have to climb 143 steps to reach it. You will get a unique view not only over the town, but also over the Trnava plain or the Little Carpathians. The moon with a star, originally placed at the top of the tower, was replaced by a gilded statue of the Virgin Mary Immaculata, whose face is on both sides in order to protect everyone and not turn her back at anyone.

Free time **Town Tower**

Tourist Information Centre is located in the Town Tower offering its services seven days a week so you will never get lost in Trnava. It provides tickets to the Town Tower and souvenirs, but also promotional materials about Trnava, maps or valuable advice from the employees of the centre.

Slow down the pace of your day and enter the magical world of art. Get into the whirl of colours and shapes, structures and visual utterances. A visit to the gallery is the basis of not only an intellectual knowledge.

The stand of the contemporary art is named after the modern sculpture founder - Ján Koniarek. Except for the premises of Koppél's Villa, a historically valuable building that was built and later, in 1910, reconstructed, for the family of the Trnava business man Koppla.

The Gallery of Ján Koniarek also administrates the building of the Synagogue Status Quo Ante, which thanks to the art and exhibitions of the Gallery of Ján Koniarek creates the centre of contemporary art.

In addition to permanent exhibitions, the Gallery of Ján Koniarek offers a rich programme throughout the year and brings works of artists from all over the world of various age categories. Whether it is a classic or modern and young art, it is definitely worth your visit.

— We witness an established trend when the towns and municipalities offer their „wonders“ and attractions, which many times go beyond the regional framework and form an integral part of the cultural heritage.

The seven wonders of Dolná Krupá are closely connected with the activity of two families - the Brunswick's and the Chotek's. An important milestone in connecting these families was the wedding of Henrietta Brunswick and Herman Chotek in 1813. We also have to mention one of the most famous composers - Ludwig van Beethoven, who used to visit the manor house in the early 19th century. Can you think of a better place to compose the Moonlight Sonata?

Manor house - A pioneering place of the classicist architecture. Its construction is directly connected to the Brunswick's family. The manor house gained its current structure in the first half of the 19th century and it is one of the most beautiful classicist rural architectures in Slovakia. At present it is administered by the Slovak National Museum – the section of Museum of Music.

A valuable source of information is, for example, the guestbook from the turn of the 19th and 20th century, in which well-known and less known names can be found. You can find out these names during your visit. The museum offers visitors a tour with a historical narrative, the opportunity to see the monument of the famous composer Ludwig van Beethoven and learn something about his activity in Dolná Krupá. You can have a look at the world of the Pink Countess Mária Henrietta Choteková or just enjoy a walk through the historic park.

History

Manor House in Dolná Krupá

Park by the manor house -

a demonstration of a modern trend of English parks. The enhancement of the surrounding nature is closely connected with the history of the manor house. At the beginning of the 19th century the park around the manor house gradually, especially thanks to the work of a German garden architect, acquired the appearance of an ideal ancient land with many architectural structures - lakes with an island, statues, artificial caves, waterfalls, etc.

The manor house in Dolná Krupá is a great additional programme, for example, when visiting Medolandia in Dolná Krupá, but also if you want to spend free time during your conference in Trnava.
